Abstract

The 36th Canadian Conference on Artificial Intelligence (Canadian AI 2023) will take place physically in Montreal, from June 5 to 9, 2023. The event is collocated with the Computer and Robot Vision (CRV) conference. These events (AI-CRV 2023) will bring together hundreds of leaders in research, industry, and government, as well as Canada's most accomplished students. They showcase Canada's ingenuity, innovation and leadership in intelligent systems and advanced information and communications technology.

Keywords: keyword1, keyword2, keyword3, up to 6

1. Introduction

We invite papers that present original work in all areas of Artificial Intelligence, either theoretical or applied. Canadian AI 2023 welcomes submissions on topics including (but not limited to):

- | | |
|-------------------------------------|--|
| • Agent Systems | • Information and Knowledge Management |
| • AI Applications | • Knowledge Representation and Reasoning |
| • Automated Reasoning | • Machine Learning |
| • Bioinformatics and BioNLP | • Multimedia Processing |
| • Case-based Reasoning | • Natural Language Processing |
| • Cognitive Models | • Neural Nets and Deep Learning |
| • Constraint Satisfaction | • Planning |
| • Data Mining | • Privacy and Security |
| • Ethics of Artificial Intelligence | • Robotics |
| • Evolutionary Computation | • Uncertainty |
| • Games | • User Modeling |
| • Information Retrieval and Search | • Web Mining and Applications |
| • Intelligent Tutoring Systems | |

Figure 1. List of topics (but not limited to)

We expressly encourage work that cuts across technical areas or applies AI techniques in the context of important domains such as e-commerce, games, healthcare, sustainability, transportation, Internet of Things, and agriculture.

*corresponding_author@example.ca

Moreover, we plan to have a colocated event on Ethics of AI, with a joint invited keynote and other activities related to this topic. We therefore encourage papers highlighting research in this specific area.

We also welcome the submission of position papers, which present evidence-based arguments for a particular point of view without necessarily presenting a new system. There will be an option during the submission process to indicate that a paper is a position paper.

1.1. Important Dates

Submission deadline:	February 12th, 2023 (11:59 p.m. UTC-12)
Author notification:	March 26th, 2023
Final papers due:	April 9th, 2023
Main conference:	June 5 to 9, 2023

Table 1. Important dates

2. Submission Details

We invite submissions of both long and short papers. Long papers must be no longer than **12 pages**, and Short papers must be no longer than **6 pages**, including references, formatted using the conference template. The authors should consult the authors guidelines and use the provided proceedings template to prepare their papers [1, 2].

Papers submitted to the conference must not have already been published, or accepted for publication, or be under review by a journal or another conference. Submissions will go through a **double-blind** review process by Program Committee members to assess originality, significance, technical merit, and clarity of presentation. As such, submissions must be anonymized, and papers that fail to do so will be rejected without review. A “Best Paper Award” and a “Best Student Paper Award” will be given at the conference respectively to the authors of each best paper, as judged by the Best Paper Award Selection Committee.

3. Publication

The conference proceedings will be published in PubPub open access online format [3], and submitted to be indexed/abstracted in leading indexing services such as DBLP, ACM, Google Scholar. A paper will be accepted either as a long or as a short paper. Long papers will be allocated 12 pages while short papers will be allocated 6 pages in the proceedings. Authors of accepted papers will be allocated time for an oral presentation at the conference and will have the opportunity to present their work in a poster session.

At least one author of each accepted paper is required to attend the conference to present the work. The authors must agree to this requirement prior to submitting their paper for review.

In addition, the corresponding author of each paper, acting on behalf of all of the authors of that paper, must complete and sign a Consent-to-Publish form. The corresponding author signing the copyright form should match the corresponding author marked on the paper.

Acknowledgements

Canadian AI is sponsored by the Canadian Artificial Intelligence Association(CAIAC)[4].

Appendix A. Example of math equation

Binomial theorem: [5]

$$(x + y)^n = \sum_{k=0}^n \binom{n}{k} x^{n-k} y^k \quad (\text{A.1})$$
